

# Our Founder

---

**Late J. Surendra Reddy**, founding Chairman of Promac Engineering Industries Limited was a distinguished first-generation entrepreneur and technocrat with over six decades of experience in the engineering industry. A visionary leader with exceptional technical expertise, he played a defining role in shaping Promac into one of India's respected engineering solution providers serving the cement, power, mineral processing, and sustainable industrial sectors.

Driven by a strong foundation in engineering excellence and an unwavering entrepreneurial spirit, Mr. Reddy established Promac with the vision of delivering reliable, innovative, and indigenous engineering solutions to industry. Under his leadership, the company grew into a trusted name recognised for turnkey project execution, advanced process technologies, and customer-centric engineering services across India and international markets.

Mr. Reddy was widely admired for his disciplined work ethic, strategic foresight, and commitment to technological progress. He firmly believed in nurturing engineering talent, adapting global technologies to meet the needs of Indian industry, and fostering long-term partnerships built on trust and integrity. His leadership laid the groundwork for Promac's enduring reputation for quality, innovation, and reliability, strengthened through collaborations with leading engineering organisations such as Taiheiyo Engineering Corporation, Japan.

Even after more than six decades of contribution to the engineering sector, Mr. Reddy remained deeply committed to industrial development and sustainable growth. His passing in December 2022 marked the close of an extraordinary chapter, but his legacy continues to inspire generations of engineers, entrepreneurs, and professionals associated with Promac and the wider engineering community.
